C. **Approval of Minutes.** Trustee Baldoz moved that the minutes of the Special and Regular Meetings of November 16, 2016, be approved as submitted. The motion was seconded by Trustee Ozuna and the motion passed unanimously.
D. Action Items

1) Exceptional Faculty Awards, Winter 2017. Ms. Kerrie Cavaness stated the Washington State Legislature under RCW 28B.50.835 authorized an exceptional faculty award program to “foster partnerships by creating matching grant programs to assist public community and technical colleges in creating endowments for funding exceptional faculty awards.” In 1992, Yakima Valley Community College and the YVCC Foundation agreed to participate in the program for exceptional faculty.

In 2001, in accordance with RCW 28B.50.843, the college negotiated a Memorandum of Understanding with the faculty union regarding the process for determining local awards from the Exceptional Faculty Awards fund invested by the YVCC Foundation. The MOU reflected the division structure in place at that time.

The faculty union executive board and the college have agreed on a Faculty Development Committee that reflects the current division structure. The committee is composed of one dean, one Arts & Sciences faculty, one Workforce Education faculty, one Basic Skills faculty, and one librarian. This committee has received and is reviewing twenty (20) faculty proposals for winter 2017. The final recommendations for the board’s approval will be submitted at the board meeting.

MOTION 17-02-01: Trustee Cate moved that the Board of Trustees adopts a motion to approve the recommended award amounts to the recipients as submitted by the Faculty Development Committee. The motion was seconded by Trustee Mendoza and passed unanimously.

2) Use of Local Funds for Property Acquisition. Dr. Teresa Rich stated as YVC continues to grow the need to acquire additional square footage has become more of a priority. The Yakima Campus is bordered by residential properties on all but its west boundary making expansion challenging. The college has identified a potential piece of property that will provide opportunities for expansion and partnerships and substantially increase the footprint and visibility of the Yakima campus.

Presently through the Department of Enterprise Services, Real Estate Division, the college is negotiating the purchase of an additional 3.91 acres with over 42,000 square feet of covered space. All property acquisitions follow the guidelines established by the State of Washington and prior to purchasing are approved by the State Board for Community and Technical Colleges.

MOTION 17-02-02: Trustee Ozuna moved that the Board of Trustees adopt a motion to authorize the college president to use local funds to purchase property located in Yakima, Washington, as discussed in executive session; the price is not to exceed the value allowed in the Department of Enterprise Services guidelines. Purchase is pending approval of the State Board for Community and Technical Colleges and negotiation by the Department of Enterprise Services, Real Estate Division. Trustee Baldoz seconded the motion. Trustee Ozuna expressed appreciation for the research done and stated this was a good opportunity for the college. Chair Whitefoot stated she was pleased with the college’s fiscal responsibility that contributed to this opportunity. Trustee Mendoza expressed that she would have liked more time to review this action item before it came before the board for a vote. Chair Whitefoot, Trustees Cate, Ozuna and Baldoz approved the motion, Trustee Mendoza abstained, and the motion carried.

**YVC Reads: Faculty Lecture – Understanding Spider Behavior: They Aren’t All Here to Kill You**

February 22, 2017 ● 7:00pm ● Kendall Hall, Building 12, Auditorium

Dr. Meghan R. Fitzgerald, YVC Biology Instructor

Most people can name a few benefits that spiders have bestowed upon humankind: many recognize that most of our food supply would be gone if spider-soldiers weren’t eating up pest species, or some people appreciate the decrease in mosquito populations. However, did you know that the Golden Orb Weavers build webs together that can be twenty feet across and that they sometimes eat their sisters? Did you know that the dancing of the Peacock jumping spider attracts ladies from all over their habitat, and that they can hear you from across the room? Or perhaps the Ogre-faced spiders will appeal to you as they catch food by throwing small lassos over its insect prey. Spiders exhibit a wide variety of unusual and interesting behaviors, some of which directly impact human lives. In this talk, Fitzgerald will give you some insight into spider relationships both world-wide and in your own backyard.
