ELIGIBLE INTENT CODE

Students at Yakima Valley College who are pursuing a degree program or an approved certificate program of at least one year in length may be considered for financial aid. Students must also have the intent to complete a postsecondary academic or vocational program to qualify. Some YVC students provided an intent code on their original YVC application that has not been updated and is no longer accurate. Currently, the only intent codes that are eligible for financial aid are, A, B, F, I and M.

If intent code A, B, F, I and M accurately reflects the reason you currently attend YVC, check the appropriate box, sign the statement below and then update your official intent code with the YVC registration/enrollment services office. Once you have done that sign the statement below and submit the Financial Aid Office.
