

## **2021-2022 INCOME/RESOURCES REVISION REQUEST**

### **Change in Circumstances and/or Income for Student and/or Spouse**

**INFORMATION FOR THE STUDENT:** 2021-2022 financial aid eligibility is based on 2019 income and assets. We will consider income revisions for unavoidable circumstances, such as death of a student's spouse, loss/change of employment, divorce or separation, a one-time-only increase in 2019 income, etc. Documentation must be attached. Revision requests will be accepted beginning July 2021. Revision requests are considered only after the student's initial financial aid application has been reviewed by the YVC awarding staff, **NO EXCEPTIONS**.

**Processing time may vary between 4-6 weeks or longer.** We process revision requests in the order they are received. Adjustments to financial aid awards are made for the entire year including fall quarter if the student was enrolled. Generally, only one revision request will be considered each year. Notification will be placed on the student financial aid portal when your request is approved or denied.

#### **REQUIRED FOR REVIEW OF THIS REQUEST:**

- The request form must be signed by student.
- A letter of explanation from the student that details each factor influencing the change in income.
  - Include dates (date of unemployment or change of wages, date of divorce or separation, date of death of a student's spouse, etc.).
  - Explain what documentation you have provided and detail how that supports your revision request.
- Documentation must be attached.
  - If you have not previously submitted your tax information, you must attach your 2019 IRS tax return transcript or signed copy of tax return form submitted to the IRS along with all W-2s, schedules and attachments. Documentation of the income change includes, but is not limited to, a letter from the former employer stating the last day of work, the last paystub showing year-to-date wages, most recent (2020) tax return, current unemployment paystub, legal documentation of dissolution of marriage, death certificate or newspaper obituary, etc.
  - If you experienced a one-time-only increase of income in 2019, you must document what the increase was from, how the income was spent, and why it will not be available in 2021-2022.
  - One-time increases due to company bonuses will **NOT** be considered.
  - Reduced income due to loss of overtime will **NOT** be considered.
- Provide a detailed estimate of 2021-2022 income/benefits.
- If you are married, estimated 2021-2022 income/benefits must be listed for you and your spouse.
- If this request is received after December 29, it will not be processed until your 2021 tax form or tax transcript has been provided to our office.

**2021-2022 INCOME/RESOURCES REVISION REQUEST - STUDENT**

**\*\* PROVIDE YOUR (& SPOUSE, IF MARRIED) 2021 INCOME\*\***

The financial aid office will use 2019 data unless changes are documented and the reason for the change is documented and warrants an exception to standard financial aid protocol because of a circumstance beyond the family's control or resulting from a death, separation, marriage or other significant change. Use the attached form to provide your best estimate of 2021 income. The decision of the financial aid office is final.
