PRORATED CALCULATIONS

Example: If I checked into a large room on September 16th then I would have to pay \$67.50

(5 days x \$13.50 prorated daily) for September 16th to September 20th and \$135.00 (set amount) from September 21st (first day of classes & fall quarter) to September 30th for a total of \$202.50.

See prorated monthly amt.

FINANCIAL AID EXAMPLE

If students are receiving financial aid (loans, grants, scholarships, etc.) the aid will be applied starting the first day of the corresponding quarter. So, in this example checking in on September 16th, you would pay out of pocket from September 16th to September 20th. If you are receiving aid it would only be applied to days after the start of the quarter (September 21st) as funding is available. See appendix-housing payments & fees for further details.

Please note: The Housing Office will not hold payment due pending receipt of earnings, income or financial aid.
